DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “second valve has a first chamber, second chamber” recited in claims 2 and 7; “first valve includes a piston” recited in claims 3, 5 and 7; “second valve having two enlarge portions and an intermediate thinner portion” recited in claims 4 and 8, must be shown or the feature(s) canceled from the claim(s). Applicants should also note that their subject matter needs to be incorporated into the specification and the drawings. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: “48 and 54” (see Fig. 2). A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities:

- On page 4, [0018] paragraph, line 5, "both the valves 29 and 40" should be changed to -- both the valves 29 and 44 --.

- On page 5, [0019] paragraph, line 1, "Figure 3B" should be changed to --Figure 3A --.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1 and 7, the phrase "a pressure differential" renders the claim indefinite because it is unclear which of the two pressures are to be claimed. Claims 2-6 and 8 are rejected by virtue of their dependence on claims 1 and 7.

Claim Suggestions

5. Claims 1-8 are objected to because of the following informalities:

- Claim 1, line 11, "a second of said valves" should be changed to --a second valve --.

- Claim 2: line 2, "a suction pressure" should be changed to -- the suction pressure --; line 3, "said piston" should be changed to -- a piston --; line 4 and 5, "a compression chamber" should be changed to -- the compression chamber--.

- Claims 3 and 5, line 4, "a compression chamber to a suction chamber" should be changed to -- the compression chamber to the suction chamber --.

- Claim 7, line 11, "a second of said valves" should be changed to --a second valve --; line 15, "a suction pressure" should be changed to -- the suction pressure --; line 16, "said piston" should be changed to -- a piston --; line 17 and 18, "a compression chamber" should be changed to -- the compression chamber--; line 22, "a compression chamber to a suction chamber" should be changed to -- the compression chamber to the suction chamber --.

Appropriate correction is required.

Allowable Subject Matter

6. Claims 1-8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
